

STATISTICS IN TRANSITION

new series

An International Journal of the Polish Statistical Association

CONTENTS

From the Editor	1
Submission information for authors	7

Sampling methods and estimation

BAŁK T., Triangular method of spatial sampling	9
DORUGADE A. V., A modified two-parameter estimator in linear regression	23
KOZŁOWSKI A., The use of non-sample information in exit poll surveys in Poland	37
MALIK S., SINGH V. K., SINGH R., An improved estimator for population mean using auxiliary information in stratified random sampling	59
SINGH H. P., TARRAY T. A., A modified mixed randomized response model	67

Research article

BIAŁEK J., Application of the original price index formula to measuring the CPI's commodity substitution bias	83
---	----

Other articles:

Multivariate Statistical Analysis 2013, Łódź. Conference Papers

DEHNEL G., Winsorization methods in Polish business survey	97
KOSIOROWSKI D., MIELCZAREK D., RYDLEWSKI J., SNARSKA M., Sparse methods for analysis of sparse multivariate data from big economic databases	111
PEKASIEWICZ D., Application of quantile methods to estimation of Cauchy distribution parameters	133
PIHLAK M., Modelling of skewness measure distribution	145
WILK J., PIETRZAK M. B., An analysis of the population aging phenomena in Poland from a spatial perspective	153

Book review

WIŚNIEWSKI J. W., Correlation and regression of economic qualitative features, Lambert Academic Publishing, 2013. By Jan Kordos	171
