

STATISTICS IN TRANSITION

new series

An International Journal of the Polish Statistical Association

CONTENTS

Editor's note and acknowledgements	491
Submission information for authors	499
Sampling methods and estimation	
Ahmad Z., Zubair R., Shahid U., A general class of mean estimators using mixture of auxiliary variables for two-phase sampling in the presence of non-response	501
Wywiał J. L., On conditional simple random sample	525
Zalewska M., Zieliński W., Statistical analysis of a questionnaire: voluntary health insurance implementation among patients suffering from allergy and asthma	535
Research articles and communicates	
Białek J., Proposition of stochastic postulates for chain indices	545
Agunloye O. K., Shangodoyin D. K., Arnab R., Lag length specification in Engle-Granger cointegration test: a modified Koyck mean lag approach based on partial correlation	559
Turczak A., Zwiech P., Variability of household disposable income <i>per capita</i> by types of residence in Poland	573
Šulc Z., Řezanková H., Evaluation of selected approaches to clustering categorical variables	591
Other articles:	
Multivariate Statistical Analysis 2014, Łódź. Conference Papers	
Kosiorowski D., Functional regression in short-term prediction of economic time series	611
Małecka M., Duration-based approach to VaR independence backtesting	627
Conference report	
The XXXIII International Conference on Multivariate Statistical Analysis (17–19 November, 2014), Łódź, Poland (M. Małecka, E. Zalewska)	637
