An International Journal of the Polish Statistical Association

CONTENTS

From the Editor	157
Submission information for authors	161

Sampling methods and estimation

Molefe W. B., Shangodoyin D. K., Clark R. G. , An approximation to the optimal subsample allocation for small areas	163
Ralte Z., Das G. , Ratio-to-regression estimator in successive sampling using one auxiliary variable	183

Research articles

Dwivedi A. K., Mallawaarachchi I., Figueiroa-Casas J. B., Morales A. M., Tarwater P. , Multinomial logistic regression approach for the evaluation of binary diagnostic test in medical research	203
Obrębski M., Walesiak M. , Functional structure of Polish regions in the period 2004-2013 – measurement via HHI Index, Florence's coefficient of localization and cluster analysis	223

Other articles:

Multivariate Statistical Analysis 2014, Łódź. Conference Papers	
Wilk J. , Using symbolic data in gravity model of population migration to reduce modifiable areal unit problem (MAUP)	243
Górna K., Górnka J. , Analysis of convergence of European regions with the use of composite index	265
Homa M., Mościbrodzka M. , Application of multifactorial market-timing models to assess risk and effectiveness of equity-linked insurance funds in Poland	279
Markowska M. , A measure for regional resilience to economic crisis	293
Budnikas G. , Computerised recommendations on e-transaction finalisation by means of machine learning	309

Other:

In Memoriam Gunnar Kulldorff (1927 –2015) by Risto Lehtonen and Imbi Traat	323
