

# STATISTICS IN TRANSITION

*new series*

*An International Journal of the Polish Statistical Association  
and Statistics Poland*

## CONTENTS

From the Editor .....	I
Submission information for authors .....	V
<b>Invited papers</b>	
<b>Wesołowski J.</b> , Multi-domain Neyman-Tchuprov optimal allocation.....	1
<b>Research articles</b>	
<b>Šoltes E., Zelinová S., Bilíková M.</b> , General linear model – an effective tool for analysis of claim severity in motor third party liability insurance .....	13
<b>Razzak H., Heumann Ch.</b> , Hybrid multiple imputation in a large scale complex survey .....	33
<b>Rabe A., Shangodoyin D. K., Thaga K.</b> , Linear Cholesky decomposition of covariance matrices in mixed models with correlated random effects .....	59
<b>Ikoba N. A. Jolayemi E. T.</b> , Modelling language extinction using Susceptible-Infectious-Removed (SIR) model .....	71
<b>Singh R., Mishra M.</b> , Estimating population coefficient of variation using a single auxiliary variable in simple random sampling .....	89
<b>Other articles:</b>	
<b>Jędrzejczak A., Kubacki J.</b> , Estimation of income characteristics for regions in Poland using spatio-temporal small area models .....	113
<b>Klimanek T., Filas-Przybył S.</b> , The impact of the applied typology on the statistical picture of population ageing in urban areas in Poland – a comparative analysis .....	135
<b>Polko-Zajac D.</b> , On permutation location–scale tests .....	153
<b>Okrasa W., Rozkrut D.</b> , Subjective and community well-being interaction in multilevel spatial modelling framework .....	167
<b>Research Communicates and Letters</b>	
<b>Subzar M., Maqbool S., Raja T. A., Sharma P.</b> , A new ratio estimator: an alternative to regression estimator in survey sampling using auxiliary information .....	181
About the Authors .....	191
Acknowledgments to reviewers .....	195
Index of Authors .....	199
