

## CONTENTS

From the Editor .....	III
Submission information for authors .....	VIII
<b>Research articles</b>	
<b>Safari-Katesari H., Zaroudi S.</b> , Count copula regression model using generalized beta distribution of the second kind .....	1
<b>Hurairah A., Alabid A.</b> , Beta transmuted Lomax distribution with application .....	13
<b>Chwila A., Żądło T.</b> , On the choice of the number of Monte Carlo iterations and bootstrap replicates in empirical best prediction .....	35
<b>Pal S., Chaudhuri A., Patra D.</b> , How privacy may be protected in optional randomized response surveys .....	61
<b>Tharshan R., Wijekoon P.</b> , A comparison study on a new five-parameter generalized Lindley distribution with its sub-models .....	89
<b>Yadav A. S., Singh S. K., Singh U.</b> , Statistical properties and different estimation methods for weighted inverted Rayleigh distribution .....	119
<b>Other articles:</b>	
<b>Motoryn R., Prykhodko K., Ślusarczyk B.</b> , Asymmetry of foreign trade turnover in Ukraine and Poland .....	143
<b>Łuczak A., Just M.</b> , Positional MEF-TOPSIS method in the assessment of the development level of complex economic phenomena for territorial units .....	157
<i>Multivariate Statistical Analysis 2018, Łódź. Conference Papers</i>	
<b>Szczepocki P.</b> , Application of iterated filtering to stochastic volatility models based on non-Gaussian Ornstein-Uhlenbeck process .....	173
<b>Research Communicates and Letters</b>	
<b>Shukla A. K., Yadav S. K.</b> , New linear model for optimal cluster size in cluster sampling .....	189
<b>Conference reports</b>	
The XXXVIII International Conference on Multivariate Statistical Analysis 5–7 November, 2019, Łódź, Poland (Baszczyńska A., Bolonek-Lasoń K.) .....	201
About the Authors .....	209
