

## CONTENTS

From the Editor .....	III
Submission information for authors .....	VII
<b>Research articles</b>	
<b>Al-Nasser A. D., ul Haq M. A.</b> , Acceptance sampling plans from a truncated life test based on the power Lomax distribution with application to manufacturing .....	1
<b>Iseh M. J., Enang E. I.</b> , A calibrated synthetic estimator for small area estimation .....	15
<b>Szymański A., Rossa A.</b> , The Complex-Number Mortality Model (CNMM) based on orthonormal expansion of membership functions .....	31
<b>Abu Awwad R. R., Bdair O. M., Abufoudeh G. K.</b> , Bayesian estimation and prediction based on Rayleigh record data with applications .....	59
<b>Sharma V., Kumar V.</b> , Trade potential under SAFTA between India and other SAARC countries: the augmented gravity model approach .....	81
<b>Yousof H. M., Ali M. M., Goual H., Ibrahim M.</b> , A new Reciprocal Rayleigh Extension: properties, copulas, different methods of estimation and a modified right censored Test for validation .....	99
<b>Boratyńska A.</b> , Robust Bayesian insurance premium in a collective risk model with distorted priors under the generalised Bregman loss .....	123
<b>Bouazzaoui H., Elomary M. A., Mamouni M. I.</b> , An application of persistent homology and the graph theory to linguistics: The case of Tifinagh and Phoenician scripts .....	141
<b>Dar S. A., Hassan A., Ahmad P. B., Wani S. A.</b> , A new count data model applied in the analysis of vaccine adverse events and insurance claims .....	157
<b>Other articles:</b>	
<i>38<sup>th</sup> Multivariate Statistical Analysis 2019, Łódź. Conference Papers</i>	
<b>Grzenda W.</b> , Modelling the occupational and educational choices of young people in Poland using Bayesian multinomial logit models .....	175
<b>Research Communicates and Letters</b>	
<b>Rehman S. A., Shabbir J.</b> , On improvement of paired ranked set sampling to estimate population mean .....	193
About the Authors .....	207
