Original research papers

Pumputis D. , Optimal sample allocation in multivariate stratified sampling: a comparison of deterministic and stochastic optimization algorithms	1
Bialek J. , Sampling techniques in the CPI measurement	21
Usman M. , Optimality of classical difference estimators of finite population variance under random non-response with comparative study	43
Sassi A., Ben Ali M., Oullada O., Rifai S. , The impact of Cyber Supply Chain Risk Management on Supply Chain 4.0	65
Eftekharian A., Alizadeh M., Ranjbar V., Kharazmi O., Hamedani G. , An extended odd log-logistic-Lindley distribution with properties, applications and Bayesian estimation	85
Fidler J., Matysiak Ł. , Modeling the impact of demand, supply and budget constraints on consumer preferences	105
Vyshnavi M., Muthukumar M. , The comparison of the hidden Markov model with machine learning techniques in agricultural prediction	119
Arasan J. , Jackknife-based diagnostics for non-monotonic hazard survival model with interval-censored data	137

Conference papers*XXXXII Multivariate Statistical Analysis 2024, Lodz, Poland*

Lula P. , The application of BERTopic models to the analysis of Polish research publications in the field of economics and management	155
Grzenda W., Marszałek A. , The role of education and gender in shaping career paths of Polish millennials: a shared frailty survival model analysis	169

XV Scientific Conference MASEP 2024 – Measurement and Assessment of Social and Economic Phenomena, Warsaw, Poland

Choczyńska A. , Is the GPT model suitable for sentiment analysis? Testing for geographical, political and gender bias	187
--	-----

Research Communicates and Letters

Kaminska O. , Survey sampling in wartime: addressing challenges for cross-national and longitudinal studies	205
